- ASP.Net Core MVC
- JavaScript
- LAMP stack
- SQL databases (MySQL, Postgres, SQL Server)
- Amazon Web Services (EC2)
- Magento
- Salesforce Commerce Cloud
- Apache

EXPERIENCE

11/2017–Present, Chicago, IL

Software Engineer – Fiserv, Inc.

Back-end web developer responsible for integrating Fiserv payment processing into some of the world's largest accounting and ERP software like Magento, Intuit and Salesforce. I touch half a dozen languages and technologies every day, as I bounce between self-directed projects, including:

- Greenfield development of a custom integration for the Magento e-commerce platform that securely integrates Fiserv payment processing to achieve SAQ-A compliance.
- Supervising the development team of custom SDKs in six programming languages for every release of Fiserv's IPG payment processing API.
- Greenfield development of a custom cartridge for Salesforce Commerce Cloud (B2C Commerce) that securely integrates Fiserv payment processing.
- Development and support of e-commerce tools that facilitate millions of dollars in transactions per year.

12/2012–11/2017, Chicago, IL

Lead Developer / Founder – Decade Leather

A passion project turned business venture. I manage all aspects of the luxury leather goods brand, Decade, from web and product development and production, to programming, and e-commerce. My proudest achievements include:

- Developing and deploying a digital storefront, including a custom wallet builder application, from scratch, using Ruby on Rails, JavaScript and HTML/CSS.
- Growing the brand into a successful company averaging tens of thousands of dollars in annual revenue.
- Attracting thousands of online followers and fans through extensive digital and social media marketing.

03/2014–11/2017, Chicago, IL

Communications Specialist – Lions Clubs International

I help set the tone and create the content that inspires the world's largest service club organization. From executive-level messaging, to nitty-gritty communications introducing service programs to 1.4 million members across 11 languages, some of my proudest achievements include:

- Planning and executing content strategies for a three year service initiative culminating in the Lions Clubs International's centennial celebration in 2018
- Developing the personal tone of the International President through his monthly addresses to over one million members
- Sharing in-depth stories of Lions' impact around the world through a monthly magazine with worldwide distribution

EDUCATION

08/05–12/10

Bachelor of Arts: English Composition

University of Kansas, Lawrence, KS

02/10–12/10
